

## **KanOkla Technology Scholarship Program**

The purpose of this scholarship program is to encourage individuals to further their knowledge and skills in information, telecommunications, and/or network technology. The KanOkla Networks Scholarship Program will provide \$5,000 yearly towards tuition and books.

KanOkla recommends the Technology Development Program at North Central Kansas Technical College (NCK Tech) at the Beloit or Hays Campus. Information on a similar technology development program must be provided and approved by KanOkla Networks before March 1st to be considered for the KanOkla Technology Scholarship Program.

To apply:

1. An applicant must be a cooperative member in good standing, of KanOkla Networks, who lives within the KanOkla Networks service area or is the dependent of a cooperative member. A member is defined as a subscriber of the cooperative who receives KanOkla "landline" telephone service from the cooperative. Having service from KanOkla by virtue of a cell phone, wireless Internet, etc. does not meet the requirements for consideration. Those services are provided by KanOkla's subsidiary, not the cooperative itself. The KanOkla Networks Scholarship Committee will make the selection of the students to receive the awards. Only one family member may be eligible.
2. Submit application by emailing to [pr@kanokla.com](mailto:pr@kanokla.com) by April 1st and attach the following...
  - official high school/college transcript with GPA
  - two letters of recommendation
  - a letter of application describing why you have chosen the technology field as a career

Applicants will be interviewed by KanOkla staff.

### ***Scholarship recipients must agree to the following...***

1. Sign an agreement with KanOkla Networks to serve as an intern during school breaks.
2. Upon completion of a technology development program, KanOkla Networks will conduct an interview for possible employment.
3. If employed, recipient will be asked to sign an agreement with KanOkla Networks for employment of one year for each year of scholarship support.

If a scholarship recipient is unable to fulfill the intern/employment obligation to KanOkla Networks, they may be subject to repaying a portion of the scholarship amount received.

Individuals will need to apply yearly.

Any questions should be directed to Pam Schneider at KanOkla Networks.
